

Hello 7th Grade Science Families,

Welcome to 7th Grade Science, my name is Kimberly Frank, and I am excited to get to know your student and to partner with you to facilitate their online learning experience. As a parent of young children myself, I know that the past 5-6 months have presented many new challenges for families. I hope that your family has been able to find many joyful moments along the way as well. I am dedicated to supporting your student's unique academic journey as they begin a school year like no other!

In 7th Grade Science we will be utilizing the district's Canvas learning management system. Students will use Canvas to access the following:

- Class Announcements
- Weekly Modules
- Digital Class Notebook
- Messaging Center (where they can send/receive emails directly to/from me)
- Grades (also available on PowerSchool)
- Other important Class Resources

Since Canvas is a district application, students will need to use their district assigned student ID number and password to log-in to the application. If for some reason your student does not know their district assigned student ID number and password, please contact our site tech, Nairovy DeSantiago, at ndesantiago@sandi.net for help.

Please use this link to access the log-in page for Canvas: <https://sandiegounified.instructure.com/>

Students will use their district assigned student ID number as their username and their district password. **Example:** Username: Student ID Number@stu.sandi.net Password: (Case Sensitive)

Once students log-in to Canvas they will be able to access the link for the zoom meeting that corresponds to their class period. Please see the schedule for week 1 below. I will meet with students from each class period for a daily 15 minute check-in.

Please let me know if you or your student have any questions or concerns about logging-in to Canvas or our first scheduled zoom meeting (August 31, 2020). Additionally, I invite you to reach-out at any time this school year as the more information I have about your student, the easier it is for me to connect with them and help them be successful! I appreciate your partnership and am looking forward to utilizing the time we have together as a learning community.

Thank you,
Kimberly Frank
